Blood lab card

Give this card to your lab technician or healthcare team when you are having blood drawn.

**COLD
AGGLUTININ
DISEASE**

Blood lab card

- I have cold agglutinin disease (CAD), a rare form of autoimmune hemolytic anemia (AIHA)
- This means my blood sample can agglutinate and be unusable at temperatures lower than 37°C. Please keep my blood sample warm (37°C) until it is ready to be tested.

PLEASE DO NOT REFRIGERATE THIS BLOOD.

For more information about CAD, visit
